DEFENSE SYSTEM

Helps you work smarter, not harder, to fight bugs.
Visit raidkillsbugs.com to identify your bug and best treatment plan.

TIPS

- Remove food spills and exposed food. Store food in sealed containers.
- Caulk cracks and crevices where roaches enter or escape into walls, including entry points from outside or neighboring units.

Use This Product To:

**ATTACK
BUGS**

**KILL BUGS
ON CONTACT**

* Use to kill roaches and other listed bugs on contact. Sprays 2 ways. Spray with the wand up for precise application in tight spots, including cracks, crevices, and under appliances. Spray with the wand folded down for larger areas. Avoid spraying near baits to make sure bugs can bring the bait back to where they hide.

Use Other Raid® Products To:

**CONTROL
BUGS**

**KILL BUGS
AT THE SOURCE**

**PREVENT
BUGS**

**KEEP
BUGS OUT**

* Use a Raid® Roach bait product to kill roaches where they hide. For heavy infestations, first use a Raid® Fogger or Fumigator product and then place baits to provide ongoing control. Read the label to find the right product for your bug problem.

* Use a Raid Max® Bug Barrier product to keep roaches and other listed bugs out. Or, spray this product along baseboards, inside cracks, and behind appliances. Do not spray surfaces with more than one pest control product. Read the label to find the right product for your bug problem.

Raid Max® Ant & Roach kills roaches in two ways: (1) It kills bugs fast—on contact and (2) it keeps on killing with residual action even after you spray, for up to 6 months.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR HOUSEHOLD USE: SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray up into air. Apply to surfaces only. Point spray opening toward surface to be sprayed and press button firmly. Hold about 12" from surface being sprayed. Spray until surfaces are wet. Avoid excessive wetting of asphalt, tile, rubber and plastic materials. To maintain control on plywood surfaces, re-treat every 4 weeks. On all other surfaces, re-treat every 6 months. **ROACHES, WATERBUGS:** Using attached applicator wand, spray until wet in cracks around baseboards and other hiding places. When bugs are driven out, spray directly. **ANTS:** Apply to ant trails, also around doors, windows and wherever ants enter house. **SILVERFISH, CRICKETS, SPIDERS:** Spray areas infested by these pests.

STORAGE AND DISPOSAL

STORAGE: Store away from heat or open flames, in an area inaccessible to children. **DISPOSAL:** Do Not Puncture or Incinerate! If empty: This container may be recycled in the few but growing number of communities where steel aerosol can recycling is available. Before offering for recycling, empty the container by using the product according to the label. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency or 800-529-3394 for disposal instructions.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Do not apply to humans, pets, plants or contaminate feed, foodstuffs, dishes or utensils. Remove pets and birds and cover aquariums. Cover or remove exposed food, dishes, utensils and food handling equipment.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **NOTE TO PHYSICIAN:** Contains petroleum distillate—vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS: FLAMMABLE, CONTENTS UNDER PRESSURE.

Keep away from heat, sparks, open flame or pilot lights. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

KEEPS KILLING FOR UP TO 6 MONTHS
